PROFESSIONAL SUMMARY

Motivated B.Tech Information Technology student and fresher full stack developer with hands-on experience in Next.js, Supabase. Strong interest in AI-assisted development, prompt engineering, clean interfaces, and end-to-end deployment on Vercel and Render.

EDUCATION

Qualification	Institution	Year
B.Tech - Information Technology	Park College of Engineering and Technology	2023 - 2026
HSC / SSLC	Government Higher Secondary School, Kalveerampalayam / PSG High School, Vedapatti	Completed Completed

TECHNICAL SKILLS

Database: Supabase, SQL

Programming: Python, C Programming, JavaScript

AI Tools: ChatGPT, Claude, Gemini, Prompt Engineering

Deployment: Vercel, Render, VS Code, Git/GitHub

PROJECTS

FacultyRecruit - Faculty Recruitment Platform | *Next.js, Supabase, Vercel/Render*

- Built a multi-role platform for Admin, University, and Candidate users with role-based dashboards.
- Implemented profile management, resume upload, candidate search, filters, and university-side candidate discovery.
- Designed subscription-based access and AI-assisted candidate filtering for natural language search.

ManScripts - Web Development Service Website | *Next.js, Supabase*

- Created a modern website concept for a full stack web development service startup.
- Included service packages, project showcase, enquiry form, and admin notification workflow.

Personal Portfolio Website | *Next.js, UI/UX Design*

- Designed a responsive portfolio to showcase skills, projects, and professional profile.
- Focused on clean visual hierarchy, modern animations, and mobile-friendly user experience.

EXPERIENCE & ACTIVITIES

- Fresher with practical project experience in full stack web development, UI/UX design, AI tools, and deployment workflows.
- Actively builds college, business, recruitment, and management system web application concepts using Next.js and Supabase.
- Comfortable creating AI prompts, project documentation, website content, and technical implementation plans.

STRENGTHS

Creative problem solving | Fast learner | Good UI/UX sense | AI tool adoption | End-to-end web development | Team collaboration
